BRINGING BACK BROADWAY

HOME ABOUT SUPPORT TIMELINE UPDATES REGISTER CONTACT US

Los Angeles City Council member Don Spence, with support from Mayor Antonio R. Padilla and members of the Los Angeles City Council, has introduced a bill to bring back Broadway.

It is not a bill to bring back Broadway, but a bill to bring back the historic Broadway streetcar line.

Bringing Back Broadway will allow a plan for a historic Broadway streetcar line, which will provide a historic, scenic, and historic route, starting from downtown Los Angeles and ending in the Hollywood Hills. The plan will also provide a historic route from the Hollywood Hills to downtown Los Angeles.

***Guaranteed Ride Home Participation Guidelines**

- Commuters must call Commuter Connections and receive authorization from Commuter Connections prior to using the GRH service. The Metropolitan Washington Council of Governments (MCOG) Commuter Connections staff will issue authorization number(s) to participating commuters and/or company Employee Transportation Coordinator's (ETCs) to certify a GRH trip. Commuters will not be reimbursed for trips not authorized by Commuter Connections. Depending on the commuter's employment site, an Employee Transportation Coordinator (ETC) may have to be contacted first in order to make the appropriate arrangements for this service. Please check with your personnel department as to whether or not your site has a designated ETC.
- Commuters must be officially registered with Commuter Connections before using the GRH service. Registered commuters are those who have received an official registration letter and GRH ID card from Commuter Connections. Commuters who have not been officially registered may use the GRH service one time, providing they meet all other eligibility criteria. This is referred to as a "one-time exception." Any commuter granted a one-time exception must be officially registered before additional GRH trips are granted. Registered and one-time exception commuters must be carpooling, vanpooling, taking transit, bicycling, or walking to their site of employment at least two (2) days per week and on the day they use
